

Safe, Durable, & Attractive

Product Features

- **Innovative design** eliminates the safety, capacity, & durability problems found in traditional coat rack systems.
- **Low Maintenance** - The highly durable will significantly reduce costs versus traditional systems.
- **Custom configurations** available to meet virtually any design requirement.
- **Lifetime Warranty** - We offer a lifetime warranty, if one of our hooks were to break, we will replace it for free.

Product Specifications

- Solid weather resistant high density, recycled polyethylene coat racks (1 1/2" x 3 1/2").
- Six color options - black, cedar, light brown, sand, slate grey, and white.
- Assembled with HangSafe Hooks secured with #14 x 1 3/4" stainless steel screws and washers.
- HangSafe Hooks™, made of Lexan (polycarbonate) plastic (7" x 1 1/4" x 3/8").

Delivery & Installation

- HangSafe Hook rack systems are pre-assembled with mounting holes pre-drilled per project specification.
- Racks and hook spacing is designed for easy linking and consistent hook spacing and appearance.
- HangSafe Hook rack systems include all mounting equipment per type.
- Pre-assembled options include 3/4" stained buttons for covering mounting holes.
